

I wanted a great career and a great life. A chance to be a leader and handle responsibility, but still have time to live outside of work. The Navy made it possible. It's given me all that I could ask for: professional development, help in financing my education through the Baccalaureate Degree Completion Program, and ways to build high-tech skills for the future. Yet I still have plenty of time to pursue all the other things that are important to me. I love what I get to do now, on the job and off. And I love knowing what I'll be able to do down the road with what I've learned in the Navy. Call 1-800-USA-NAVY or go to navy.com for more information.
