

## **The Jersey City Public School District is “on the move” making steady strides toward sure success!**

In our effort to prepare our students for the challenges of the competitive global and technological society, we have developed curricula for all content areas at all grade levels that is consistent with the New Jersey Core Curriculum Content Standards.

Located approximately 3 miles west of New York City, we are a large metropolitan area with a small town feel comprised of many ethnically and racially diverse nationalities and cultures.

The Jersey City Public Schools participate in many local, state and national competitions and has won numerous awards including the “Magna Award,” a “Star Schools” Award and 22 Best Practices Awards in many categories.

An array of extended day and summer enrichment programs are also in place to advance student performance.
