

# Others call it a first job.

We call it the experience of a lifetime.

For 30 years, Genentech has been at the forefront of the biotechnology industry, using human genetic information to discover, develop, commercialize and manufacture biotherapeutics that address significant unmet medical needs.

Genentech offers an intensive 10-12 week summer internship program. Interns participate as members of project teams in research, development, manufacturing or business areas that complement their college curricula with relevant hands-on experience. For more information, please visit <http://www.gene.com/gene/careers/college/internships/>.

**Genentech named #1 by FORTUNE Magazine.  
"100 Best Companies to Work For" (2006)**

---

As we work to deliver the next generation of breakthrough biotherapeutics for cancer and other serious diseases, our commitment to diversity remains fundamental to everything we do and everything we are.

Genentech congratulates The Black Collegian on its 35th anniversary edition.

**Diversity. It's in our DNA.**

**Genentech**

IN BUSINESS FOR LIFE
